Annual Tobacco Review

Yearly review of the French tobacco smoking and cessation indicators

This yearly summary brings together various key indicators on tobacco sales in the tobacconist retailer network, sales of tobacco cessation treatments and the use of tobacco cessation services. Sales figures are provided by the French Customs Authority (DGDDI) and data on smoking cessation treatments by the Group for the Production and Elaboration of Statistics (GERS). The figures relating to the Tobacco Information Service (TIS) telephone helpline/website and #MoisSansTabac are provided by *Santé publique France*.

The “Tobacco Review” collects recent figures which vary in nature and origin, presents them as a concise overview, and publishes them within a short time-frame. It has been drawn up monthly by the OFDT since April 2004 (in French only) and is published on OFDT website every 3 months.
