

# Drugs, Key Data 2019

OFDT, 10 p.  
June 2019

Since 2007, OFDT has been publishing *Drugs, Key Data*, an overall perspective digest with the most recent and detailed facts and figures. This 8<sup>th</sup> issue, a 10-page document produced in 2019, is released to mark International day against drug abuse and illicit trafficking. It provides the most relevant figures in order to measure and present a quick overview of the French drug-related phenomena in 2019.

This document summarises for the main substances the levels of use observed in the French population as a whole. Then, it provides detailed information on use, treatment, health and social consequences as well as trafficking data per product. When possible, trends in these areas are provided.
